Ref: Recommendation letter

No: 05477-16
Novi Sad, date: June 29th, 2016

To whom it may concern,

We have installed the Comet-Fuel saving system on our 4 buses, beginning in October 2015.

After 8 months of testing, the reduction in fuel consumption is from 7-19% (depending on exploitation conditions).

We are very satisfied so far with the benefits of Comet-fuel saving system has provided for all our buses, and we have planned to expand our operations.

Best regards,

Aleksandar Lončar
Head of Technical department
Public city transportation company Novi Sad
